

EXECUTIVE SUMMARY

This analysis looks at Amazon sales data to understand overall performance and customer trends. During the period, a total of 100 orders were recorded, generating revenue of around ₹35,000, with an average order value of about ₹350. One noticeable issue is the relatively high cancellation rate (around 30%), which may need further attention. Sales also differ across regions and product categories, suggesting there is room to improve targeting and delivery efficiency. Overall, the findings highlight a few key areas where the business can improve both sales and customer experience.

KEY INSIGHTS

- Out of 100 total orders, approximately **30 orders were cancelled**, resulting in a **30% cancellation rate**, which is relatively high and may impact overall revenue.
- The total revenue generated was around **₹35,258**, with an **average order value of ₹352.58**, indicating moderate spending per transaction.
- A small group of products contributed a larger share of total sales, suggesting **uneven product performance** and potential dependence on a few high-selling items.
- Order distribution varied across regions, with some areas showing **higher order volumes but also higher cancellations**, pointing to possible delivery or service issues.
- Monthly sales trends show **fluctuations rather than steady growth**, indicating inconsistent demand patterns over time.

- **MOST SUCCESSFUL PRODUCT CATEGORY (REVENUE-WISE)?**
- MOST SUCCESSFUL PRODUCT CATEGORY: THE ELECTRONICS CATEGORY GENERATED THE HIGHEST REVENUE AT APPROXIMATELY ₹15,209.
- **REGION WITH HIGHEST CANCELLATION RATE?**
- REGION WITH HIGHEST CANCELLATION RATE: THE NORTH REGION HAD THE HIGHEST CANCELLATION RATE AT AROUND 40%.
- **NUMBER OF ORDERS DELIVERED WITHIN 2 DAYS?**
- ORDERS DELIVERED WITHIN 2 DAYS: A TOTAL OF 11 ORDERS WERE DELIVERED WITHIN 2 DAYS.
- **How XLOOKUP SUPPORTED YOUR ANALYSIS?**
- USE OF XLOOKUP: XLOOKUP WAS USED TO EFFICIENTLY LINK PRODUCT AND CUSTOMER DETAILS ACROSS DIFFERENT TABLES FOR ACCURATE ANALYSIS.
- **RECOMMENDATIONS TO IMPROVE DELIVERY PERFORMANCE?**
- RECOMMENDATIONS: DELIVERY PERFORMANCE CAN BE IMPROVED BY OPTIMIZING LOGISTICS IN HIGH-CANCELLATION REGIONS, ESPECIALLY THE NORTH, AND INCREASING FAST-DELIVERY CAPABILITIES.

Recommendations

- Improve delivery operations in the North region by strengthening logistics partnerships and tracking systems to reduce the high cancellation rate.
- Increase the number of fast deliveries by optimizing warehouse locations and maintaining stock for high-demand products like Electronics.
- Monitor delivery performance regularly and set clear timelines to ensure more orders are delivered within 2 days.
